

Welcome to Our Betting Platform

Welcome to our innovative betting platform, where esports enthusiasts can engage in exciting, skill-based betting on their favorite tournaments and matches. Our platform is designed to provide a fair, transparent, and enjoyable betting experience for all users. Whether you're a seasoned bettor or new to the scene, our user-friendly interface and comprehensive features will help you navigate the world of esports betting with ease.

What You Can Do Here

1. Place Bets on Existing Sets:

- Browse through available sets and place bets based on your predictions.
- Choose between buying existing bets or deploying new ones with your own conditions.

2. Deploy New Sets:

- Create and manage your own betting sets for upcoming tournaments.
- Set conditions and stakes, and earn commissions for honest play.

3. Monitor and Manage Bets:

- Keep track of your active bets, adjust conditions, and unlist bets if necessary.

Key Features

- **Secure and Transparent:** Our platform uses blockchain technology to ensure all transactions are secure, transparent, and immutable.
- **User-Friendly Interface:** Intuitive design and easy navigation make it simple for users of all experience levels.
- **Fair Dispute Resolution:** Our staff members are always ready to review and resolve disputes fairly, ensuring a level playing field for everyone.

Getting Started

Placing Bets on Existing Sets

1. Accessing the Betting Set:

- Navigate to the homepage.
- Locate and select the set you wish to bet on.

2. Making a Bet:

- Click on the desired set and choose either "Buy A Bet" or "Deploy A Bet."

3. Buying a Bet:

- Amount to Win: This is your potential total payout if your win condition is met.
- Cost to Purchase: This is the amount you need to wager.
- Owner of Bet Wins: This condition must be met for you to win.
- After purchasing, you can re-list the bet at any price. If someone buys your re-listed bet, you receive the sale amount and exit the bet.

4. Deploying a Bet:

- Set the conditions for your bet:
 - My Bet: The amount you're wagering.
 - Opponent's Wager: The amount the opponent needs to bet.
 - Win Condition: The outcome needed for you to win the total payout (your bet plus the opponent's bet).
- You can unlist your bet at any time before it is accepted by another user.
- Monitor your bet actively; unlist if the risk/reward becomes unfavorable.
- Time Left To Bet: Displays the remaining time for the bet within the tournament.

5. Conclusion of Betting:

- The set enters "Voting Mode" when the time runs out or the set owner declares a winner.
- Users have 2 hours to contest the outcome by matching the owner's wager and providing reasons for disagreement. Or if a winner was never declared a user may disagree whenever they like.
- A staff member reviews disputes:

- If the challenger is correct, they receive their wager plus the owner's wager. The owner forfeits their commission.
- If the challenger is incorrect, the owner receives the challenger's wager and retains their commission.
- Withdraw your balance after the winner is finalized.

Deploying a New Set

1. Creating a New Bet:

- Navigate to the "create a bet" tab.
- Find the upcoming esports tournament and select the specific set to bet on.
- Lock up a specified amount of tokens which will be returned if you are honest and no disputes arise over the winner you declare.

2. Managing the Bet:

- Declare a winner before the tournament countdown ends.
- If no disputes arise within a 2-hour voting window post-declaration, earn a 3% commission from all winning bets, which is added to your locked tokens.

3. Finalizing the Set:

- If a dispute arises or you fail to declare a winner, a moderator steps in. Incorrect declarations lead to loss of commission and locked tokens.
- Once all conditions are settled, you can withdraw your earnings and locked tokens, ideally after all users have completed their withdrawals.

We hope this introduction and FAQ provide you with all the information you need to get started and enjoy our platform. If you have any further questions, feel free to reach out to our support team. Happy betting!
